Semi gloss durable / removable / 80# liner

Spin mfg #	Labels per Sheet	Label Shape	Label Size (W x L)	Number of labels across	Number of labels down	Inner Carton Packaging	Avery® ref for templates only
0081377	8	Rectangle	4 x 2 1/2	2	4	100 box	-

A semi-gloss paper strengthened with a thin film layer to provide added durability. Suitable as an economical alternative to vinyl in some applications. This construction is produced with stripped edges virtually eliminating the risk of adhesive contamination, and perforations between the labels to make separating easy. Liner splits to expose the adhesive tab along the top of the label allow for trouble-free application. Suitable for toner-based equipment from high speed production presses to copiers and desktop printers.

Die Cut Program - Overview & Featured Constructions

Express and Custom Die Cut Program

□ **Express Die Cut** program applies to all dies currently available at Spinnaker.

Die ID noted in charts starting on page 7.

Lead time is typically 3 - 5 business days.

△ **Custom Die Cut** program is available for all new die cut patterns based on specific requirements.

Lead time is 7 - 10 business days after approval of the die pattern.

Express and Custom:

- Minimum is 1,000 sheets
- No separate die charge
- Face and/or liner perforations available
- Die cut on both liner and face available

Spinnaker Coating can create custom die patterns - contact Customer Support for additional information.

Product Constructions - Laser / Dry Toner Compatible

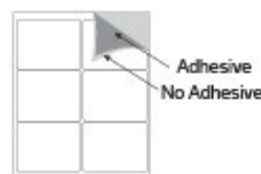

• Adhesive-Free Edge 8.5 x 11 Die Cuts

Spinnaker Labels with **Advantedge Technology®** are designed for today's demanding digital print systems. The difference is a unique manufacturing process that eliminates adhesive from the outer 1/16" edge of the sheet, which is critical since heat and pressure can force adhesive out of the sides of many digital labels resulting in expensive repairs and downtime. Spinnaker Labels with **Advantedge Technology®** provide printers peace of mind and trouble-free processing.
