

Certified for **HP Indigo**

Products designed for HP Indigo digital presses

Access the exciting world of fast set-ups, small runs, variability, and great graphic production

Digital printing is amazing. And, in addition to traditional paper, you can also print "sticky paper" labelstock on a digital press — that opens up a lot of possibilities! The Starliner®, Strip-Tac®, and Metro® brands offer a variety of pressure sensitive products that are specifically engineered for HP Indigo digital presses and are readily available for efficient delivery.

- Top-selling items are certified for HP Indigo printing by the Rochester Institute of Technology.

Die cuts for HP Indigo digital presses are also available with minimums as low as 1,000 sheets!
