

# Having trouble calculating minimum buy on custom sheets?

Minimum on most custom orders range from 1.5 MMSI (Million Square Inches) to 3 MMSI. Our newly designed website includes two calculators that automatically convert MMSI to number of sheets and number of sheets to MMSI. Use this tool when calculating custom order requirements. Find it at: [spinps.com](http://spinps.com) > products tab> sheet home.

Also, check out the new website to find easy access to often-used information, including links to templates, data sheets, and print tips, making everything just a click away!

## IN OTHER NEWS

### Coming soon: Digital Dual Purpose Vinyl Transition

- Same item and item number for both dry toner and HP Indigo printing
- Reduce stocking SKUs while increasing inventory turns

Be on the lookout for additional details over the next few weeks.

### Fluorescent Colors and Yellow Litho Component Change

Due to a forced vendor change, fluorescent colors and yellow litho will be produced using a different base paper. The result is a slight change in caliper, but no change to printability and performance. Pricing and item numbers are unaffected by this change.
