

Ariva® Digital

Pressure Sensitive Paper & Film

We are Ariva

A leading provider of products and solutions that help organizations communicate and collaborate more effectively.

Ariva brings you the most comprehensive and versatile offering of qualified and proven substrates to help you make the most of your digital equipment. No matter if you purchased an HP Indigo, Xerox iGen series, Kodak NexPress, Konica Minolta, Canon or any other production toner devices, Ariva has the solution to help you maximize the return on your investment and generate profit.

Production Toner, Laser Printers and Copiers

Including:

- Kodak NexPress
- Xerox DocuColor and iGen series
- Canon imageRUNNER series
- Konica Minolta
- HP Color Laser Jet series

Production Toner, Laser Printers, and Copiers

Technical data for printing pressure sensitive

PAPER

Laser printing after offset printing:

- For best laser processing results, immediately package offset printed stock in a moisture barrier wrap

Desktop and mid-range printers:

- Feed through manual feed tray
- Use “heavy paper” setting or set to proper GSM for best toner anchorage

Production Toner:

- For best feeding results, use the belt/friction feed loading tray and the top delivery tray
- Use the appropriate weight setting for best toner anchorage and feeding

FILM

- For best toner anchorage, use appropriate weight or thickness setting, which on some printers is the “heavyweight” setting
- When printing clear, choose the “white” setting so the printer will recognize the liner
- Use the maximum amount of static elimination
- If a jam occurs, turn the sheets so that the opposite edge becomes the feed edge as the jam may have been caused by a bent corner

All data denotes typical values

^R Indicates GSM value for removable adhesive item.

- Condition stock at pressroom conditions for a minimum of 24 hours
- For best ink anchorage and feeding results, use appropriate GSM or thickness setting
- To improve ink anchorage, the blanket temperature may be increased
- For technical support, call 877-210-5104

Pressure Sensitive Paper and Film Products

Specifically designed to give excellent results across all types of digital print platforms — from toner based colour production equipment to HP Indigo digital presses.

- Fully leverage the efficiency of digital production equipment
- Offer your customers innovative print solutions to keep them coming back
- Your customers' designs are limited only by their imagination

Express Ship

When non-stocking digital sheet sizes are needed for maximum printer efficiency, use the Digital Express Program.

- Papers and films, permanents and removables, and cover-ups (all stocking constructions in this swatchbook are available)
- 8.5x11, 8.5x14, 11x17, 12x18, 13x19, and 14x20 sheet sizes qualify*
- Bulk packed in cartons
- Order minimum is 1,000 sheets and maximum is 10,000 sheets*
- Leadtime is 2-5 days

*Larger quantities and additional digital sizes may have a longer leadtime
