

2.0 mil Matte Silver Polyester

This is a topcoated product that offers excellent flexo and thermal transfer printability. With excellent tear strength, scuff resistance, and dimensional stability, 2.0 mil Matte Silver Polyester is well-suited for demanding applications.

Suggested applications include:

- durable goods
- product identification labels
- personal care
- promotional labeling

This facestock is paired with SFA™ — a general purpose, emulsion acrylic, permanent adhesive.

Available Trimless with a minimum single roll order of 3" x 5,000'

Product performance depends on many variables; testing for a specific application is recommended.

A pressure sensitive material manufacturer providing personalized service to the label printing and converting industry
